# HOW DO YOU REGISTER?

- 1. Free online registration at [www.polytechhealth.com](http://www.polytechhealth.com). To register, you will need your implant passport (which you will have received from your surgeon after surgery).
- 2. You can register for up to six months after surgery.
- 3. The registration is only valid if the online-form has been filled out completely.
- 4. Apart from registration, participation in the annual survey is mandatory to benefit from the Implants of Excellence programme. The annual survey link will be sent to you by e-mail. The link is active for a limited time only. Make sure to take part in the survey in time. If you have not received an e-mail with the link by the end of May (if you have registered by 31.03. of the previous year), contact: [ioe@polytechhealth.com](mailto:ioe@polytechhealth.com) at your earliest convenience.
- 5. All documents are delivered digitally, unless delivery by mail is requested in the registration process.
- 6. By registering to the Implants of Excellence programme you fully accept the terms and conditions associated therewith.

Please read carefully the  
Warranty Terms and Conditions on:  
<https://polytech-health-aesthetics.com/en/warranty>

## IMPLANTS OF EXCELLENCE PROGRAMME BY POLYTECH

## WARRANTY CERTIFICATE

Personal document containing the full information regarding your implant and operation

## TERMS AND CONDITIONS

Details of the IMPLANTS OF EXCELLENCE programme

Please note:

All documents are delivered digitally, unless delivery by mail is requested in the registration process.

# YOUR PARTICIPATION

1. The 'Implants of Excellence' programme is a voluntary service provided by POLYTECH and can be changed or discontinued at any time, and registrations which are made up to that time will not be affected by such a decision. Use of the programme is subject to the conditions in effect at the time of surgery. The programme is only valid in countries where POLYTECH is active.
2. Participation in the annual survey is mandatory. You will receive the link by email.
3. The programme shall not apply in the following cases:
  - Damage to the implant before or during implantation surgery
  - Damage to the implant as a result of an accident or injury
  - Damage to the implant by mammography
  - Damage to the implant during open or closed capsulotomy
  - Any other complications not explicitly listed in the previous table under "Service"
  - For custom made POLYTECH and B-Lite® breast implants and gluteal implants with article numbers preceded by SAF
4. Implant surgery must be performed by a qualified surgeon using state-of-the-art surgical techniques and in compliance with the instructions for use for the breast or gluteal implant in question. In case of rupture or capsular contracture, the surgeon who performed the original implantation should, if possible, perform the implant replacement. If this is not possible, POLYTECH must be informed proactively.
5. For requests for the replacement of breast implants due to capsular contracture Baker Grade III or IV, the treating surgeon must prepare photographic documentation prior to explantation. The same applies to the rotation of implants coated with Microthane®.
6. Damaged implants must be sent to POLYTECH for examination in a decontaminated state within four weeks after explantation. A comprehensive surgical report must be enclosed. In cases where implants are not returned properly or if no sufficient documentation is enclosed, no benefits can be granted.

Valid for all implant surgeries. This warranty retroactively\* covers all breast and gluteal implants registered in Implants of Excellence.

.....

\* retrospectively means that these new terms and conditions apply to future claims irrespectively of your registration date; any past claims that were decided in accordance with previous terms and conditions or which were not brought forth within the provided time limit, may not benefit from these new terms and conditions.

Commitment you can feel
